****This is a DRAFT List showing the list of projects in your RPO that would carry-forward or be removed based on these criteria. Please note that this list is still draft/subject to change if there are changes between the draft STIP and the final STIP, and subject to a double-check of which projects will meet the NEPA criterion. But it should be pretty close, and give you a place to start working from. We will not receive the final official list of which projects are retained/removed until after the Board of Transportation approves the Final STIP (expected the first week of June).**
